THE FIRST GLANCE SAYS IT ALL: THAT’S WHY IT MUST BE MEMORABLE.

Fassa introduces new forms of expression thanks to its outdoor colour palette, offering inspirations in line with the most modern trends, so that the right combination can always be found both for those looking for high-impact multi-coloured harmonies and for those who favour understated, elegant tone-on-tone.

The palette is divided into 7 sections, i.e. 7 colour areas to draw inspiration from to immediately evoke a landscape: the green tranquillity of the English countryside, the rosy Parisian spring, the diligent grey of the industrial revolution or the textured browns of the Tuscan Renaissance...

A colour that you can feel, that you experience, to find the perfect shade in historic building rehabilitation projects or to navigate the creative freedom of an entirely new construction work.

RX 561

Compact acrylic siloxane coating

Use
RX 561 is used as a top coat for decorating and protecting exterior façades. The nature of the raw materials used in the formulation gives the surface a rustic appearance. RX 561 is used on lime-cement base coat render, on base coats reinforced with alkali-resistant fibreglass mesh and on the FASSATHERM external wall insulation system.

Supply
Containers of approx. 25 kg

Tints: a selection from our TRENDS FOR EXTERIORS swatchbook

* ETA certification valid only for 1 - 1.5 - 2 mm gradings
